

Akhira Nandan Thota

Software Engineer

akhiranandanthota@gmail.com — +91-8688485414 — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

Professional Summary

Computer Science graduate with internship experience in Artificial Intelligence, Machine Learning, Salesforce, and full-stack development. Proficient in Python, Java, SQL, and JavaScript, with hands-on experience in MERN technologies, RAG, machine learning workflows, Salesforce development, and REST APIs. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, and software engineering.

Technical Skills

Programming: Java, Python, SQL, JavaScript

Frontend: HTML5, CSS3, React.js, Bootstrap

Backend: Node.js, Express.js, REST APIs, JSON

AI/ML: Machine Learning, RAG, Prompt Engineering, Feature Engineering, Model Evaluation, Data Preprocessing

Salesforce: Apex, SOQL, Lightning Web Components (LWC), Flows, Service Cloud, Profiles, Permission Sets

Cloud: Oracle Cloud Infrastructure (OCI), Google Cloud Platform (GCP), IBM Cloud

Experience

AI & Machine Learning Intern — Infosys Springboard

- Developed machine learning workflows covering data preprocessing, feature engineering, model training, and evaluation using Python.
- Implemented supervised learning algorithms and evaluated models using accuracy, precision, and recall.
- Translated real-world problem statements into structured machine learning solutions and documented findings.

Salesforce Developer Intern — SmartBridge Foundation

- Developed Salesforce applications using Apex, SOQL, Lightning Web Components (LWC), and Flows.
- Configured profiles, permission sets, and object relationships to support business workflows.
- Debugged Salesforce applications and resolved functional and data-consistency issues.

Full Stack Developer Intern — SmartBridge & SmartInternz

- Developed full-stack web applications using the MERN stack, integrating React.js, Node.js, Express.js, and MongoDB.
- Built responsive frontend interfaces and implemented RESTful APIs for seamless communication between frontend and backend services.
- Designed and integrated MongoDB databases, handled CRUD operations, and tested application functionality through hands-on development.

Projects

AI Powered Visa Eligibility Screening Agent

[Repository](#)

- Developed an AI-powered visa eligibility screening system using Retrieval-Augmented Generation (RAG).
- Integrated LangChain with Google Gemini API and semantic vector retrieval for contextual eligibility assessment.
- Added rule-based validation logic to improve assessment reliability.

Arduino Based Fire Fighting Robot

[Repository](#)

- Designed an autonomous fire-fighting robot using flame sensors, Arduino Uno, motor drivers, and a water pump.
- Implemented sensor-based navigation and automatic fire suppression logic.
- Validated hardware integration through prototype testing and performance evaluation.

Education

Bachelor of Technology in Computer Science Engineering

Oct 2022 – May 2026

Kakatiya Institute of Technology and Science (KITS), Warangal

Certifications

Salesforce Certified Agentforce Specialist

Oracle Cloud Infrastructure Data Science Professional

Oracle Cloud Infrastructure Generative AI Professional

Career Essentials in Generative AI by Microsoft and LinkedIn
